RE: Still Having a problem and a little more, They also will not bet

me send copy's to you because it is not legal or no money

I write to you to let you know what is going on in here. They leave me is pain, is it right? Is this right when you have to write a nurse up because she gives shot without a Dronder or whon you get thrown in a seclude setting for trying to stand up for my right found take all my personal.

The nurse that is giving me the most problem's is michelle work and also in my law suit, she is constantly giving me problems doing he. own thing and the COM-S Director sue schoppell not doing anything about it, now they took me off my liver meds because they said I'm not a good carridate. It made me in even worse shape so now what? leave me in pain! I could Die are they gonna Help on let me pass away! I need Help medically or let me Die with my loved ones. What I Honestly need is some outside treatment from profesional Doctors who don't descriminate because I'm au inmate of feel as though I don't Deserve treatment,

There is alot made I should tell you but I don't feel safe writing, I really need help more problems is the lest thing I need. I hour no money so a friend is helping me send this out, I hope it get to you Itso I know your a caseing Honcot mon and you do what you can forus

Here another example of How they treat me, They put me in maximum ecurity I did my time for this H-R-Y-L-I The only time I give anyon problem is when its over my Health I don't what to Die in here, Is it right to leave someone in pain isnt that cruel and unusua punishment, It seem little nobody cares what happen to me

Description of Complaint: On todays AM med call, I went as usual to get meds. Nurse Brenda was at window and the for my pain medication and it was denied by the nurse. She stated that because she was not the regular nurse" she couldn't help me. As I advised to her that I was under a great amount of pain she said she didn't care and refused to give me her name and was some what disrespectful and said that if it was an emergency I should go to the infirmary. I was prescribed the medication because I do need it. Not only was it refused but I was insuffed by the nurses lack of care. If the nurse can't help me with already prescribed meds how can I get better or at least some relief? Is not like I only went there just for kicks.

Remedy Requested

Maybe the nurse has has the wrong career or is overworked but why is that my fault? If she can't handle her job she should change careers and let someone who may really need it work in her place. All I want is to be able to get my meds as prescribed since we don't always get there on time anyway.
